

# POSTDOCTORAL AND STUDENT POSITIONS

Positions are available immediately and throughout the fall for students and postdocs to participate in a number of dynamic research projects including:

**Socio-economic systems relevant to:**

- the economic crisis
- ethnic violence
- international development
- healthcare

**Biological systems relevant to:**

- evolution and diversity
- cellular function
- physiology

**Fundamental mathematical advances such as:**

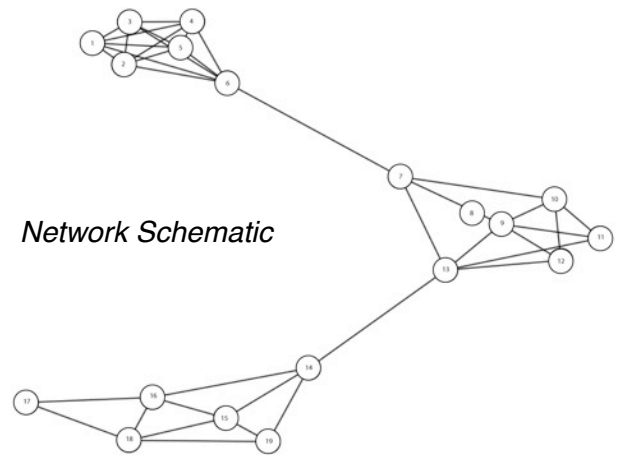

- multi-scale representations

We are seeking applicants with a background in physics, mathematics, or computer science and an interest in social, and economic complex systems.

Apply at:

<http://www.necsi.edu/education/postdoc/app.php>

for pre and postdoctoral positions
